I'm putting up some skeleton wiki pages for the documentation of the project. I'd like each of us to fill in our sections as we develop, and work together on it.

Right now I'm just chopping up the overview that I created two weeks ago, which doesn't integrate changes proposed to the terminology of origin and branch -- see the discussion we're having in the summary thread [here](https://autocare.communifire.com/spaces/127/sandpiper/forums/general/4998/project-requirements-supporting-an-api/1) (<https://autocare.communifire.com/spaces/127/sandpiper/forums/general/4998/project-requirements-supporting-an-api/1>). -- but it will be better if it's up for us to collaborate on.
